OPHPQPYPFSC	91294322	PROCESS YELLOW	SEIKO CP64 AND CP100 PRINTERS

**COMPATIBLE MEDIA:** Streamline inks are suitable for the range of media recommended for the machines listed above. These include back lit and front-lit vinyl, banners, blue back and wet strength papers and mesh.

**OUTDOOR EXPOSURE:** Accelerated weathering tests indicate that Streamline inks have an expected outdoor life of up to 3 years.

Accelerated weathering tests simulate exposure in a middle European climate. It is essential to note that many arbitrary factors will affect the outdoor durability of all inks, ink deposit, media, climate and position etc. Further advice and guidance on the suitability of jet inks for prolonged outdoor use can be obtained from your local Sun Chemical branch.

**FLUSHING SOLUTION:** Currently not available in cartridges

**SHELF LIFE:** Streamline inks have a shelf life of **18 months** from the date of manufacture.

**STORAGE:** Ideally Streamline inks should be stored at between 5-25°C, out of direct sunlight.

**PACK SIZE:** 1000ml pre-filled cartridges.

**SAFETY REGULATIONS:** Detailed Health and Safety Data sheets can be provided by your local Sun Chemical branch. For further information, please contact your local Sun Chemical team or visit the Technical Help Desk at website: <http://www.sunchemicalhelpdesk.com>
